*ready for relocation

I'm frontend developer with 3.5 years of experience, I am passionate about creating engaging and user-friendly web experiences. Proficient in technologies such as React, Redux, GraphQL, RESTAPI, TypeScript, JavaScript, Next.js, Node.js, Nest.js, Express. I combine my technical skills with a creative mindset to deliver high-quality solutions.

Professional Experience

Deepen | Frontend Developer

April 2024 - Present | Full Time

- Developing an admin panel tailored for fitness management, enhancing functionality and user experience.
- Participating in team meetings to design and plan the architecture of client-side projects, ensuring alignment with client requirements and business goals.
- Implementing responsive and mobile-friendly designs to ensure optimal user experience across all devices and screen sizes.
- Collaborating closely with backend developers to seamlessly integrate frontend components with backend APIs using RESTful services, ensuring robust and efficient data exchange.

Exadot | Frontend Developer

June 2023 - Jan 2024 | Full Time

- Developing a Single Page Application (SPA) with a pixel-perfect view, ensuring a seamless and precise user interface.
- Leveraging the latest cutting-edge technologies such as Zustand for state management and Zod for schema validation, enhancing application reliability and maintainability.
- Implementing responsive and mobile-friendly designs to ensure optimal user experience across various devices and screen sizes.
- Collaborating with backend developers to integrate frontend components with backend APIs using both REST API and GraphQL, enabling efficient and flexible data fetching.
- Optimizing website performance by employing techniques like lazy loading, code splitting, and caching, significantly improving load times and user experience.
- Utilizing CSS/SCSS and JavaScript to implement responsive designs and optimize application performance, ensuring a smooth and engaging user interface.
- Working closely with UX designers to create intuitive and aesthetically pleasing UI designs using modern frameworks such as MUI, Tailwind, and Chakra, delivering visually appealing and user-friendly interfaces.

Udevs | Frontend Developer

June 2021 - May 2023 | Full Time

- Over 2 years of experience in Developing and maintaining frontend codebase for web applications using React, NextJs, and Redux
- Strong experience in multi-language (Localization) support, panel, and dark-mode support for the site
- Strong experience in Updating the old version of the framework and libraries to the latest ones
- Collaborating with backend developers to integrate frontend with backend APIs using REST API and GraphQL
- Conducting code reviews and providing feedback to team members to ensure code quality and consistency
- Implementing responsive designs and optimizing application performance using CSS/SCSS and JavaScript
- Working with UX designers to create intuitive and aesthetically pleasing UI designs using MUI, Tailwind, Chakra
- Completed 5 real projects and worked on admin dashboards.

Missed.com | Assistant of Product Manager

- Conducting user research to gather insights on user needs and pain points, and identify areas for improvement in the product.
- Creating and maintaining product roadmaps to guide the development and launch of new features and enhancements to the product.
- Working closely with cross-functional teams such as designers and developers to ensure timely delivery of products, and that the product functionality and user experience met requirements.
